## EXPERIENCE

### Freelance Web Developer

January 2024 - Present

Develop responsive websites, integrating backend functionalities and APIs, while optimizing performance and cross-browser compatibility.

**Technologies:** ReactJS, HTML5, CSS3, JavaScript, Tailwind CSS

### Graphic Designer - Vermilion Group

March 2022 - August 2022

Created visual content that enhanced online presence and ensured cohesive branding across platforms.

**Technologies:** Adobe Illustrator, Photoshop, Figma

### Graphic Designer - Imaginar Studio

October 2022 - October 2023

Produced design solutions for client presentations and marketing, gaining essential multimedia skills.

**Technologies:** Adobe Creative Suite (Photoshop, Illustrator, Premiere Pro), Figma

## PROJECTS

### Marques Jr

🌐 marquesjr.com

Developed a responsive React application for a barbershop, enabling users to book appointments and explore services. The app ensures consistent performance across various devices, enhancing user experience and accessibility.

**Technologies:** ReactJS, Tailwind CSS

### Kampus

🌐 thekampus.netlify.app

Led the development of a Full-Stack application aimed at improving communication and task management. Built with ReactJS, leveraging the MERN stack, the app allows users to organize and optimize their time effectively.

**Technologies:** ReactJS, Node.js, Express.js, MongoDB, Tailwind CSS

### Pokedex

🌐 project2-react-app.netlify.app

Created a React-based application using the PokeAPI, allowing users to manage and customize their Pokémon collections. The app includes features for detailed insights and customization, enhancing user engagement.

**Technologies:** ReactJS, HTML5, CSS3, JavaScript, PokeAPI

### Mario Breakout

🌐 davidvlucca.github.io/project\_mario\_breakout

Recreated the classic "Breakout" game with a Mario theme using HTML, CSS, and JavaScript. The project combined simple gameplay mechanics with nostalgic elements to create an engaging user experience.

**Technologies:** HTML5, CSS3, JavaScript
