SUMMARY

As a Junior Front-End Developer, I combine graphic design expertise with proficiency in JavaScript (ES6), HTML5, CSS3, and the MERN stack. With a communicative and goal-oriented approach, I am eager to contribute to a dynamic and innovative work environment that values teamwork. Open-minded and committed to continuous learning, I am excited about the prospect of making meaningful contributions to exciting projects and professional growth.

EDUCATION

Web Development, Full-Stack Developer
Ironhack
📅 10/2023 – 12/2023

Multimedia Technician, Multimedia
Escola Básica e Secundária da Cidadela
📅 01/2019 – 12/2022

Computer Science
Staart

EXPERIENCE

Graphic Design
Imaginar Studio
As a Graphic Designer, I conceptualized and produced diverse materials for projects at a design firm, utilizing Adobe Illustrator and Photoshop to develop impactful design solutions for client presentations, marketing collateral, and promotions.
📅 10/2022 – 10/2023
📍 Portugal · Hybrid

Designer
VERMILION GROUP
03/2022 - 08/2022
Seixal, Setúbal, Portugal

PROJECTS

Kampus
🌐 https://thekampus.netlify.app

Kampus stands as an Full-Stack Application built in ReactJS, leveraging the MERN Stack, NextUI, and TailwindCSS technologies. Designed to enhance communication between staff and students, it goes beyond by facilitating a seamless transition into campus life. Offering a virtual tour and an interactive dashboard, students can effortlessly take notes, organize tasks, and optimize their time using the Pomodoro technique.

Pokedex
🌐 https://project2-react-app.netlify.app

Pokedex is a ReactJS Full-Stack App with CRUD functionality, offering a dynamic experience. Users can select and manage Pokémon from the PokeAPI, customizing their Pokedex with renaming and removal options. Hover for detailed Pokémon insights.

Mario Breakout
🌐 https://davidvlucca.github.io/project_mario_breakout/

Mario Breakout emerges as a FrontEnd application crafted with the fundamental technologies of HTML, CSS, and Javascript. Following a straightforward approach, this application features a well-known classic game—"breakout"—infused with the iconic Mario aesthetic. The interactive gaming experience brings together the simplicity of the raw technologies and the nostalgic charm of the beloved Mario universe.
